

# Artfully Created. Purposefully Curated. Simplicity by Design.

It all starts with a feeling. From there, we take that idea and create an assortment of beautifully crafted mosaic and tile elements that tell a story. While each of our collections are unique, they all speak to the character of home. From our Arctic Whisper to Shadow Mill, our collections are versatile, bringing a sense of cohesion and personality to any room. Explore each collection to find the best expression for your home.

# Arctic Whisper COLLECTION

Inspired by simplicity and versatility, our Arctic Whisper collection can translate effortlessly into all sorts of styled living quarters. Whether your abode is a contemporary chic loft, modern farmhouse, beach cottage, or a classic Americana home, this assortment of crisp white and cool grey tiles can pull together a room's design details to make an exquisite statement.

- 1. Field Tile:** Consistently sized tiles used to cover medium to large installation areas such as: backsplashes or feature walls. Popular field tile patterns include: stacked, offset brick, and herringbone.
- 2. Crown Moulding:** Also known as a "Cap," or an "Ogee," is a decorative moulding piece that is often used to finish the edges of a tile run, act as a transition piece between tile elements, or frame elements within an installation area for a stylized design.
- 3. Dome Moulding:** Also known as a "Pencil Moulding," a dome is often used as a transition piece between tile elements, or to finish the edge of an installation of field tiles or mosaics.
- 4. Single & Double Bullnose:** Is used for finishing the top of an area or turning direction and has a convex radius on one side (Single Bullnose), or two adjacent sides (Double Bullnose).
- 5. Curbside Trim:** Is a standalone convex edge of a bullnose and serves as a great option to add a "Bullnose" edge on both flat and beveled field tiles. A curbside trim is a great alternative to a traditional installation that may call for a single or double bullnose.

At 53rd Avenue, we believe tile is an artful expression of personal character and the nostalgic, warm feeling of home. As a Jeffrey Court brand, we are family-owned and operated, so we understand the importance of cultivating a comfortable and pleasing living environment. From the floors we walk on to the surrounding walls, home is a testament of our daily dwellings. That's why we aim to create beautiful, on-trend pieces that are of excellent quality, yet still affordable. Each of our tile concepts have a sophisticated and modern appeal that lasts over the years. From classic white subway tiles to multicolor, hexagonal mosaic accents, our collections are designed with classic roots through a contemporary, style forward lens. Our tiles are not just another style element; they are the finishing touches that make a house your home.
